## Product description

The CDM offers a modular design, ensuring fast connection of a SICK 1D/2D code reader or RFID interrogator to a SICK CAN scanner network, a host computer or a PLC. The CDM supports scanners from the CLV6xx, Lector® series, RFH6xx, RFU6xx, IDM1xx, ID-M2xx families as well as the LMS4xx laser scanners. The CDM is rated IP 65. The CDM offers free plug-in slots for additional modules, such as power supply, display or fieldbus gateways (depending on type). The CMC600 Connection Module Cloning unit stores all the parameter values of the connected scanner. The values are automatically copied to a new device if a scanner requires replacement.

## At a glance

- Efficient solution to power and connect to SICK's Auto-ID component portfolio
- Slots for optional fieldbus modules, parameter memory, display and power supply module
- Simple voltage supply of scanner
- IP 65 connection of a scanner using SICK standard cable
- Direct access to the service interface of the sensor
- Connection diagram integrated in lid
- Clearly visible and easily accessible screw/spring-loaded terminals

## Your benefits

- Easy connection of the sensor to fieldbus systems
- Fast exchange of the sensor through parameter memory CMC
- Fast installation and easy networking save time
- Simple troubleshooting
- Easy diagnosis via optional CMD400 display module

## SICK AT A GLANCE

SICK is one of the leading manufacturers of intelligent sensors and sensor solutions for industrial applications. A unique range of products and services creates the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents and preventing damage to the environment.

We have extensive experience in a wide range of industries and understand their processes and requirements. With intelligent sensors, we can deliver exactly what our customers need. In application centers in Europe, Asia and North America, system solutions are tested and optimized in accordance with customer specifications. All this makes us a reliable supplier and development partner.

Comprehensive services complete our offering: SICK LifeTime Services provide support throughout the machine life cycle and ensure safety and productivity.

For us, that is “Sensor Intelligence.”
